This short form base shelf prospectus (this “**Prospectus**”) relates to the offering for sale by Aphria Inc. (the “**Company**” or “**Aphria**”) from time to time, during the 25-month period that this Prospectus, including any

amendments thereto, remains valid, of up to US\$500,000,000 (or the equivalent in other currencies based on the applicable exchange rate at the time of the offering) in the aggregate of: (i) common shares (“**Common Shares**”) in the capital of the Company; (ii) warrants (“**Warrants**”) to purchase Common Shares and/or other Securities (as defined below); (iii) subscription receipts (“**Subscription Receipts**”) convertible into Common Shares and/or other Securities; (iv) debt securities (“**Debt Securities**”), which may consist of bonds, debentures, notes or other evidences of indebtedness of any kind, nature or description and which may be issuable in series; (v) securities convertible into or exchangeable for Common Shares and/or other Securities (“**Convertible Securities**”); (vi) rights (“**Rights**”) exercisable to acquire, or convertible into, Common Shares and/or other Securities; and (vii) units (“**Units**”) comprised of one or more of any of the other Securities, or any combination of such Securities (the Common Shares, Warrants, Subscription Receipts, Debt Securities, Convertible Securities, Rights and Units are collectively referred to herein as the “**Securities**”). The Securities may be offered in amounts, at prices and on terms to be determined based on market conditions at the time of sale and set forth in one or more accompanying prospectus supplements (each, a “**Prospectus Supplement**”). In addition, the Securities may be offered and issued in consideration for the acquisition of other businesses, assets or securities by the Company or any one of its subsidiaries. The consideration for any such acquisition may consist of the Securities separately, a combination of Securities or any combination of, among other things, Securities, cash and assumption of liabilities. One or more securityholders (each a “**Selling Securityholder**”) of the Company may also offer and sell Securities under this Prospectus. See “*Selling Securityholders*”.

All information permitted under applicable laws to be omitted from this Prospectus will be contained in one or more Prospectus Supplements that will be delivered to purchasers together with this Prospectus except in cases where an exemption from such delivery has been obtained. Each Prospectus Supplement will be incorporated by reference into this Prospectus for the purposes of securities legislation as of the date of the Prospectus Supplement and only for the purposes of the distribution of the Securities to which the Prospectus Supplement pertains.

The Company is permitted, under a multi-jurisdictional disclosure system (the “MJDS”) adopted by the securities regulatory authorities in Canada and the United States, to prepare this Prospectus and any Prospectus Supplement in accordance with Canadian disclosure requirements, which are different from those of the United States.

The Company prepares its financial statements, which are incorporated by reference in this Prospectus, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and such financial statements are subject to the standards of the Public Company Accounting Oversight Board (United States) (“PCAOB”) and auditor independence standards. The Company’s financial statements may not be comparable to the financial statements of United States issuers.

The enforcement by investors of civil liabilities under United States federal securities laws may be affected adversely because the Company is a corporation amalgamated under the laws of the Province of Ontario, Canada, and all of its executive offices, administrative activities and assets are located outside the United States. In addition, most of the directors and officers of the Company are residents of jurisdictions other than the United States and all or a substantial portion of the assets of those persons are or may be located outside the United States. See “Enforceability of Civil Liabilities”.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION (THE “SEC”) OR ANY STATE OR CANADIAN SECURITIES COMMISSION OR REGULATORY AUTHORITY NOR HAS THE SEC OR ANY STATE OR CANADIAN SECURITIES COMMISSION OR REGULATORY AUTHORITY PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

Investors should be aware that the acquisition of the Securities described herein may have tax consequences both in the United States and in Canada. Such tax consequences for investors who are residents in, or citizens of, the United States may not be described fully herein or in any applicable Prospectus Supplement. You should read the tax discussion in any applicable Prospectus Supplement; however, this Prospectus or any applicable Prospectus Supplement may not fully describe these tax consequences, and you should consult your tax adviser prior to making any investment in the Securities.

A Prospectus Supplement relating to a particular offering of Securities may include terms pertaining to the Securities being offered thereunder that are not within the terms and parameters described in this Prospectus. Where required by statute, regulation or policy, and where the Securities are offered in currencies other than Canadian dollars, appropriate disclosure of foreign exchange rates applicable to the Securities will be included in the Prospectus Supplement describing the Securities.

No underwriter or agent has been involved in the preparation of this Prospectus or performed any review of the contents of this Prospectus.

Mr. Irwin D. Simon, Mr. Tom Looney, Mr. Walter Robb and Mr. David Hopkinson are directors of the Company and each reside outside of Canada. Each of Mr. Simon, Mr. Looney, Mr. Robb and Mr. Hopkinson has appointed Aphria at 98 Talbot St. W., Leamington, Ontario, N8H 1M8, as his agent for service of process in Canada. Prospective investors are advised that it may not be possible for investors to enforce judgements obtained in Canada against any person or company that is incorporated, continued or otherwise organized under the laws of a foreign jurisdiction or resides outside of Canada, even if the party has appointed an agent for service of process.

The Company and the Selling Securityholders may offer and sell the Securities to or through underwriters or dealers purchasing as principals, and may also sell directly to one or more purchasers or through agents or pursuant to applicable statutory exemptions. See "*Plan of Distribution*". The Prospectus Supplement relating to a particular offering of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by the Company and/or the Selling Securityholders in connection with the offering and sale of the Securities, and will set forth the terms of the offering of such Securities, including, to the extent applicable, any fees, discounts or any other compensation payable to underwriters, dealers or agents in connection with the offering, the method of distribution of the Securities, the identity of the Selling Securityholders, the initial issue price (in the event that the offering is a fixed price distribution), the proceeds that the Company and/or the Selling Securityholders will, or expect to receive and any other material terms of the plan of distribution.

The Securities may be sold from time to time in one or more transactions at a fixed price or prices or at a non-fixed price or prices. If offered on a non-fixed price basis, the Securities may be offered at market prices prevailing at the

time of sale (including, without limitation, sales deemed to be “at-the-market distributions” as defined in National Instrument 44-102 – *Shelf Distributions*, including sales made directly on the Toronto Stock Exchange (the “TSX”), the New York Stock Exchange (“NYSE”), or other trading markets for the Securities), at prices determined by reference to the prevailing price of a specified security in a specified market or at prices to be negotiated with purchasers, in which case the compensation payable to an underwriter, dealer or agent in connection with any such sale will be decreased by the amount, if any, by which the aggregate price paid for Securities by the purchasers is less than the gross proceeds paid by the underwriter, dealer or agent to the Company and/or the Selling Securityholders. The price at which the Securities will be offered and sold may vary from purchaser to purchaser and during the period of distribution.

In connection with any offering of Securities, other than an “at-the-market distribution” (as defined under applicable Canadian securities legislation), unless otherwise specified in a Prospectus Supplement, the underwriters, dealers or agents, as the case may be, may over-allot or effect transactions which stabilize, maintain or otherwise affect the market price of the Securities at a level other than those which otherwise might prevail on the open market. Such transactions may be commenced, interrupted or discontinued at any time. A purchaser who acquires Securities forming part of the underwriters’, dealers’ or agents’ over-allocation position acquires those securities under this Prospectus and the Prospectus Supplement relating to the particular offering of Securities, regardless of whether the over-allocation position is ultimately filled through the exercise of the over-allotment option or secondary market purchases. See “*Plan of Distribution*”. No underwriter or dealer involved in an “at-the-market distribution” under this Prospectus, no affiliate of such an underwriter or dealer and no person or company acting jointly or in concert with such underwriter or dealer will over-allot Securities in connection with such distribution or effect any other transactions that are intended to stabilize or maintain the market price of the Securities.

The issued and outstanding Common Shares are traded on the TSX and on the NYSE under the symbol “APHA”. On August 22, 2019, the last trading day prior to the date of this Prospectus, the closing price of the Common Shares was \$8.65 and US\$6.51 on the TSX and the NYSE, respectively.

Unless otherwise specified in the applicable Prospectus Supplement, each series or issue of Securities (other than Common Shares) will not be listed on any securities exchange. Accordingly, there is currently no market through which the Securities (other than Common Shares) may be sold and purchasers may not be able to resell such Securities purchased under this Prospectus. This may affect the pricing of such Securities in the secondary market, the transparency and availability of trading prices, the liquidity of such Securities and the extent of issuer regulation. See “*Risk Factors*”.

Investing in the Securities is speculative and involves significant risks. Readers should carefully review and evaluate the risk factors contained in this Prospectus, the applicable Prospectus Supplement and in the documents incorporated by reference herein before purchasing any Securities. See “*Forward-Looking Information*” and “*Risk Factors*”.

Neither the Company nor any Selling Securityholder is making an offer of the Securities in any jurisdiction where such offer is not permitted.

Unless otherwise specified in a Prospectus Supplement relating to any Securities offered, certain legal matters relating to Canadian and Ontario law in connection with the offering of the Securities will be passed upon on behalf of Aphria by Fasken Martineau DuMoulin LLP. Certain legal matters relating to United States law in connection with the offering of the Securities will be passed upon on behalf of Aphria by DLA Piper LLP (US), New York, New York.

ADDITIONAL INFORMATION

The Company has filed a registration statement on Form F-10 with the SEC under the United States Securities Act of 1933, as amended (the "**1933 Act**"), relating to the Securities. This Prospectus, including the documents incorporated by reference into this Prospectus, which forms a part of the registration statement, does not contain all of the information contained in the registration statement, certain items of which are contained in the exhibits to the registration statement as permitted by the rules and regulations of the SEC. See "*Documents Filed as Part of the*

Registration Statement". Statements included or incorporated by reference in this Prospectus about the contents of any contract, agreement or other documents referred to are not necessarily complete, and in each instance, readers should refer to the exhibits for a complete description of the matter involved. Each such statement is qualified in its entirety by such reference. Each time the Company sells Securities under the registration statement, the Company will provide a Prospectus Supplement that will contain specific information about the terms of that offering. The Prospectus Supplement may also add, update or change information contained in this Prospectus.

The Company is subject to informational requirements of the U.S. Securities Exchange Act of 1934, as amended (the "**U.S. Exchange Act**"), and applicable Canadian requirements and, in accordance therewith, the Company files reports and other information with the SEC and with securities regulatory authorities in Canada. Under the MJDS adopted by the United States and Canada, documents and other information that the Company files with the SEC may be prepared in accordance with the disclosure requirements of Canada, which are different from those of the United States. As a foreign private issuer, the Company is exempt from the rules under the U.S. Exchange Act prescribing the furnishing and content of proxy statements, and the Company's officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the U.S. Exchange Act. Reports and other information filed by the Company with, or furnished to, the SEC may be accessed on the SEC's website at www.sec.gov. Readers may read and download any public document that the Company has filed with the securities commission or similar regulatory authority in each of the provinces of Canada, other than Québec, on SEDAR at www.sedar.com.

ENFORCEMENT OF CIVIL LIABILITIES

The Company was amalgamated under the laws of the Province of Ontario, Canada, and all of its executive offices, administrative activities and assets are located outside the United States. In addition, most of the directors and officers of the Company are residents of jurisdictions other than the United States and all or a substantial portion of the assets of those persons are or may be located outside the United States.

As a result, investors who reside in the United States may have difficulty serving legal process in the United States upon the Company or its directors or officers, as applicable, or enforcing judgments obtained in United States courts against any of them or the assets of any of them located outside the United States, or enforcing against them in the appropriate Canadian court judgments obtained in United States courts, including, but not limited to, judgments predicated upon the civil liability provisions of the federal securities laws of the United States, or bringing an original action in the appropriate Canadian courts to enforce liabilities against the Company or any of its directors or officers, as applicable, based upon United States federal securities laws.

In the United States, the Company has filed with the SEC, concurrently with Aphria's registration statement on Form F-10, an appointment of agent for service of process on Form F-X. Under such Form F-X, the Company has appointed CT Corporation System as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against the Company in a U.S. court arising out of or related to or concerning the offering of the Securities under the registration statement.

In addition, certain marketing materials (as that term is defined in applicable Canadian securities legislation) may be used in connection with a distribution of Securities under this Prospectus and the applicable Prospectus Supplement(s). Any statement contained in this Prospectus or in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this Prospectus to the extent

that a statement contained herein, in any Prospectus Supplement hereto or in any other subsequently filed document which also is, or is deemed to be, incorporated by reference herein, modifies or supersedes such statement. Any statement so modified or superseded shall not constitute a part of this Prospectus, except as so modified or superseded. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document or statement that it modifies or supersedes. The making of such a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it is made.

Neither the Company nor any Selling Securityholder has provided or otherwise authorized any other person to provide investors with information other than as contained or incorporated by reference in this Prospectus or any Prospectus Supplement. If an investor is provided with different or inconsistent information, such investor should not rely on it.

DESCRIPTION OF THE BUSINESS

The following is a summary of information about Aphria and does not contain all the information about Aphria that may be important to prospective investors. Prospective investors should read the more detailed information including, but not limited to, the AIF, financial statements and management's discussion and analysis, that are incorporated by reference into and are considered to be a part of this Prospectus.

Aphria

Aphria is licensed to produce and sell medical and adult-use cannabis and cannabis-derived extracts in Canada under the provisions of the Cannabis Act. Aphria received its licence to produce and sell medical cannabis on November 26, 2014, followed by its licence to sell cannabis extracts on August 18, 2016. These licences (the "**Licences**") were extended to include the adult-use market on October 17, 2018. The Licences currently do not contain a cap on production or sales. The Licences have a current term that ends on September 25, 2019.

Aphria's head office is based in Leamington, Ontario, adjacent to the Company's original 1,100,000 square foot Leamington greenhouse facility known as "Aphria One". On March 4, 2019, Health Canada granted an amendment permitting the Company to commence production in an additional 800,000 square feet of facilities at Aphria One, as part of the Company's Part IV and Part V Expansions (each as defined in the AIF).

Aphria holds third-party independent good manufacturing practice ("**GMP**") certification of its Leamington, Ontario growing and processing facilities. The certification is for the current GMP standards of CFR 21 parts 210/211 established by the United States Food and Drug Administration for Active Pharmaceutical Ingredients and Finished Pharmaceuticals. Aphria One is in the process of obtaining EU-GMP certification ("**EU-GMP**") for the supply of bulk products to the Company's remaining EU-GMP sites for production of finished product.

Broken Coast

In addition to the Licences, the Company equally holds a licence issued pursuant to the Cannabis Act in the name of its subsidiary, Broken Coast Cannabis Ltd. ("**Broken Coast**"). Broken Coast operates a fully licensed indoor cannabis production facility on Vancouver Island. USE OF PROCEEDS

The use of proceeds from the sale of Securities will be described in the applicable Prospectus Supplement relating to a specific offering and sale of Securities. Among other potential uses, the Company may use the net proceeds from the sale of Securities for general corporate purposes, including funding ongoing operations and/or working capital requirements, to repay indebtedness outstanding from time to time, capital projects and potential future acquisitions, including in relation to international expansion.

Management of the Company will retain broad discretion in allocating the net proceeds of any offering of Securities under this Prospectus and the Company's actual use of the net proceeds will vary depending on the availability and suitability of investment opportunities and its operating and capital needs from time to time. All expenses relating to an offering of Securities and any compensation paid to underwriting dealers or agents as the case may be, will be paid out of the proceeds from the sale of Securities, unless otherwise stated in the applicable Prospectus Supplement. See "*Risk Factors - Discretion in the Use of Proceeds*".

The Company may, from time to time, issue securities (including Securities) other than pursuant to this Prospectus. The Company will not receive any proceeds from any sale of Securities by a Selling Securityholder.

PLAN OF DISTRIBUTION

The Company and the Selling Securityholders may from time to time during the 25-month period that this Prospectus, including any amendments hereto, remains valid, offer for sale and issue, as applicable, up to an aggregate of US\$500,000,000 (or the equivalent in other currencies based on the applicable exchange rate at the time of the offering) in Securities hereunder.

The Company and the Selling Securityholders may offer and sell the Securities to or through underwriters or dealers purchasing as principals, and may also sell directly to one or more purchasers or through agents or pursuant to applicable statutory exemptions. The Prospectus Supplement relating to a particular offering of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by the Company or any Selling Securityholder in connection with the offering and sale of the Securities, and will set forth the terms of the offering of such Securities, including, to the extent applicable, any fees, discounts or any other compensation payable to underwriters, dealers or agents in connection with the offering, the method of distribution of the Securities, the identity of the Selling Securityholders, the initial issue price, the proceeds that the Company will receive and any other material terms of the plan of distribution. Any initial offering price and discounts, concessions or commissions allowed or re-allowed or paid to dealers may be changed from time to time.

In addition, the Securities may be offered and issued in consideration for the acquisition of other businesses, assets or securities by the Company or one of its subsidiaries. The consideration for any such acquisition may consist of the Securities separately, a combination of Securities or any combination of, among other things, Securities, cash and assumption of liabilities. In addition, one or more Selling Securityholders of the Company may sell Securities to or through underwriters or dealers purchasing as principals and may also sell the Securities to one or more purchasers directly, through statutory exemptions, or through agents designated from time to time. See "*Selling Securityholders*".

The Securities may be sold from time to time in one or more transactions at a fixed price or prices or at prices which may be changed or at market prices prevailing at the time of sale, at prices related to such prevailing prices or at negotiated prices, including sales in transactions that are deemed to be "at-the-market distributions" as defined in National Instrument 44-102 - *Shelf Distributions* ("**NI 44-102**"), including sales made directly on the TSX, the NYSE or other existing trading markets for the Common Shares. The price at which the Securities will be offered and sold may vary from purchaser to purchaser and during the period of distribution.

In connection with the sale of the Securities, underwriters, dealers or agents may receive compensation from the Company, any Selling Securityholder or from other parties, including in the form of underwriters', dealers' or agents' fees, commissions or concessions. Underwriters, dealers and agents that participate in the distribution of the Securities may be deemed to be underwriters for the purposes of applicable U.S. and/or Canadian securities legislation and any such compensation received by them from the Company or any Selling Securityholder and any

profit on the resale of the Securities by them may be deemed to be underwriting commissions. In connection with any offering of Securities, except as otherwise set out in a Prospectus Supplement relating to a particular offering of Securities and other than in relation to an “at-the-market” distribution, the underwriters, dealers or agents, as the case may be, may over-allot or effect transactions intended to fix, stabilize, maintain or otherwise affect the market price of the Securities at a level other than those which otherwise might prevail on the open market. Such transactions may be commenced, interrupted or discontinued at any time.

Underwriters, dealers or agents who participate in the distribution of the Securities may be entitled, under agreements to be entered into with the Company and/or any Selling Securityholder, to indemnification by the Company and/or any Selling Securityholder against certain liabilities, including liabilities under U.S. and/or Canadian securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, the Company in the ordinary course of business.

Unless otherwise specified in the applicable Prospectus Supplement, each series or issue of Securities (other than Common Shares) will be a new issue of Securities with no established trading market. Accordingly, there is currently no market through which the Securities (other than Common Shares) may be sold and purchasers may not be able to resell such Securities purchased under this Prospectus. This may affect the pricing of such Securities in the secondary market, the transparency and availability of trading prices, the liquidity of such Securities and the extent of issuer regulation. See “*Risk Factors*”.

DIVIDENDS

Aphria has never paid any dividends on its Common Shares. Aphria does not intend to pay dividends on any of its Common Shares in the foreseeable future. Any decision to pay dividends on its Common Shares in the future will be at the discretion of the Company’s board of directors and will depend on, among other things, the Company’s results of operations, current and anticipated cash requirements and surplus, financial condition, any future contractual restrictions and financing agreement covenants, solvency tests imposed by corporate law and other factors that the board of directors may deem relevant.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

Owning any of the Securities may subject holders to tax consequences. The applicable Prospectus Supplement may describe certain Canadian federal income tax consequences to an investor of acquiring, owning and disposing of any of the Securities offered thereunder. Prospective investors should consult their own tax advisors prior to deciding to purchase any of the Securities.

RISK FACTORS

Before deciding to invest in any Securities, prospective investors of the Securities should consider carefully the risk factors and the other information contained and incorporated by reference in this Prospectus and the applicable Prospectus Supplement relating to a specific offering of Securities before purchasing the Securities, including those risks identified and discussed under the heading “*Risk Factors*” in the AIF, which is incorporated by reference herein. See “*Documents Incorporated by Reference*”.

An investment in the Securities offered hereunder is speculative and involves a high degree of risk. The risks and uncertainties described or incorporated by reference herein are not the only ones the Company may face. Additional risks and uncertainties, including those that the Company is unaware of or that are currently deemed immaterial, may also become important factors that affect the Company and its business. If any such risks actually occur, the Company’s business, financial condition and results of operations could be materially adversely affected.

Prospective investors should carefully consider the risks below and in the AIF and the other information elsewhere in this Prospectus and the applicable Prospectus Supplement and consult with their professional advisors to assess any investment in the Company.

In addition, investors are cautioned not to place undue reliance on forward-looking statements in this Prospectus, the documents incorporated herein and the Company’s other public disclosure. By their nature, forward-looking statements involve numerous assumptions, known and unknown risks and uncertainties, of both a general and specific nature, that could cause actual results to differ materially from those suggested by the forward-looking statements or contribute to the possibility that predictions, forecasts and projections will prove to be materially inaccurate.

Risks Related to the Securities

Return on Securities is not Guaranteed

There is no guarantee that the Securities will earn any positive return in the short term or long term. A holding of Securities is speculative and involves a high degree of risk and should be undertaken only by holders whose financial resources are sufficient to enable them to assume such risks and who have no need for immediate liquidity in their investment. A holding of Securities is appropriate only for holders who have the capacity to absorb a loss of some or all of their holdings.

Discretion in the Use of Proceeds

Management of the Company will have broad discretion with respect to the application of net proceeds received by the Company from the sale of Securities under this Prospectus or a future Prospectus Supplement and may spend such proceeds in ways that do not improve the Company's results of operations or enhance the value of the Common Shares or its other securities issued and outstanding from time to time. Any failure by management to apply these funds effectively could result in financial losses that could have a material adverse effect on the Company's business or cause the price of the securities of the Company issued and outstanding from time to time to decline.

Dilution

The Company may sell additional Common Shares or other Securities that are convertible or exchangeable into Common Shares in subsequent offerings or may issue additional Common Shares or other Securities to finance future acquisitions. The Company cannot predict the size or nature of future sales or issuances of securities or the effect, if any, that such future sales and issuances will have on the market price of the Common Shares. Sales or issuances of substantial numbers of Common Shares or other Securities that are convertible or exchangeable into Common Shares, or the perception that such sales or issuances could occur, may adversely affect prevailing market prices of the Common Shares. With any additional sale or issuance of Common Shares or other Securities that are convertible or exchangeable into Common Shares, investors will suffer dilution to their voting power and economic interest in the Company. Furthermore, to the extent holders of the Company's stock options or other convertible securities convert or exercise their securities and sell the Common Shares they receive, the trading price of the Common Shares on the TSX and/or NYSE may decrease due to the additional amount of Common Shares available in the market.

Volatile Market Price of the Common Shares

The market price of the Common Shares may be volatile and subject to wide fluctuations in response to numerous factors, many of which are beyond the Company's control. This volatility may affect the ability of holders of Common Shares to sell their securities at an advantageous price. Market price fluctuations in the Common Shares may be due to the Company's operating results failing to meet expectations of securities analysts or investors in any period, downward revision in securities analysts' estimates, adverse changes in general market conditions or economic trends, acquisitions, dispositions or other material public announcements by the Company or its competitors, along with a variety of additional factors. These broad market fluctuations may adversely affect the market price of the Common Shares.

Financial markets have historically at times experienced significant price and volume fluctuations that have particularly affected the market prices of equity securities of companies and that have often been unrelated to the operating performance, underlying asset values or prospects of such companies. Accordingly, the market price of the Common Shares may decline even if the Company's operating results, underlying asset values or prospects have not changed. Additionally, these factors, as well as other related factors, may cause decreases in asset values that are deemed to be other than temporary, which may result in impairment losses. There can be no assurance that continuing fluctuations in price and volume will not occur. If such increased levels of volatility and market turmoil continue, the Company's operations could be adversely impacted and the trading price of the Common Shares may be materially adversely affected.

Liquidity

Shareholders of the Company may be unable to sell significant quantities of Common Shares into the public trading markets without a significant reduction in the price of their Common Shares, or at all. There can be no assurance that there will be sufficient liquidity of the Common Shares on the trading market, and that the Company will continue to meet the listing requirements of the TSX, the NYSE or achieve listing on any other public listing exchange.

There is currently no market through which the Securities, other than the Common Shares, may be sold and, unless otherwise specified in the applicable Prospectus Supplement, none of the Warrants, Subscription Receipts, Debt Securities, Convertible Securities, Rights or Units will be listed on any securities or stock exchange or any

automated dealer quotation system. As a consequence, purchasers may not be able to resell Warrants, Subscription Receipts, Debt Securities, Convertible Securities, Rights or Units purchased under this Prospectus or any Prospectus Supplement. This may affect the pricing of the Securities, other than the Common Shares, in the secondary market, the transparency and availability of trading prices, the liquidity of these securities and the extent of issuer regulation. There can be no assurance that an active trading market for the Securities, other than the Common Shares, will develop or, if developed, that any such market, including for the Common Shares, will be sustained.

Risks Related to the Company's Business and the Cannabis Industry

Reliance on Licence

The Company's ability to cultivate, store and sell cannabis and cannabis oil in Canada is dependent on maintaining its Licence with Health Canada and licences through its various subsidiaries. Failure to comply with the requirements of the Licence or any subsidiary licence or any failure to maintain its Licence or any subsidiary licence may have a material adverse impact on the Company's business, financial condition and results. There can be no guarantees that Health Canada will extend or renew the Licences as necessary or, if it extended or renewed, that the Licences will be extended or renewed on the same or similar terms. Should Health Canada not extend or renew the Licences or should it renew the Licences on different terms, the Company's business, financial condition and results of operations may be materially adversely affected.

License application in respect of Aphria Diamond may not be successful

There is no guarantee that Health Canada will approve the Aphria Diamond license application in a timely fashion, if at all. The Company's failure to successfully execute the license application (including receiving the Health Canada approvals in a timely fashion, if at all) could adversely affect the Company's business, financial condition and results of operations, and may result in the Company not meeting anticipated or future demand when it arises.

Company's Expansion Efforts may not be Successful and Company's Operations are Subject to Risk as a Result of Company's Expansion Efforts including Company's International Expansion

There is no guarantee that the Company's expansion strategy (including receiving the expected Health Canada approvals in a timely fashion if at all) will be completed in the currently proposed form, if at all, nor is there any guarantee that the Company will be able to expand into additional jurisdictions. There is also no guarantee that the Company's intentions to acquire and/or construct additional cannabis production and manufacturing facilities in Canada and in other jurisdictions with federally legal cannabis markets, and to expand the Company's marketing and sales initiatives will be successful. Any such activities will require, among other things, various regulatory approvals, licenses and permits (such as additional licenses from Health Canada under the Cannabis Act, as applicable) and there is no guarantee that all required approvals, licenses and permits will be obtained in a timely fashion or at all. There is also no guarantee that the Company will be able to complete any of the foregoing activities as anticipated or at all.

The Company's failure to successfully execute its international expansion strategy (including receiving required regulatory approvals, licenses and permits) could adversely affect the Company's business, financial condition and results of operations and may result in the Company failing to meet anticipated or future demand for its cannabis products, when and if it arises.

The Company's expansion into jurisdictions outside of Canada is subject to additional business risks, including new or unexpected risks or could significantly increase the Company's exposure to one or more existing risk factors, including economic instability, changes in laws and regulations, and the effects of competition. In addition, international expansion could subject the Company's business to certain risks relating to fluctuating exchange rates or require a number of up-front expenses, including those associated with obtaining regulatory approvals, as well as additional ongoing expenses, including those associated with infrastructure, staff and regulatory compliance. These factors may limit the Company's ability to successfully expand its operations into such jurisdictions and may have a material adverse effect on the Company's business, financial condition and results of operations.

Risks Inherent to the Cannabis Industry

The Company operates in a highly regulated and rapidly evolving market. Sometimes new risks emerge and management may not be able to predict all of them, or be able to predict how they may cause actual results to be different from those contained in any forward-looking statements. Failure to comply with the requirements of the license(s) or any failure to maintain the license(s) would have a material adverse impact on the business, financial condition and operating results of the Company.

The industry is subject to extensive controls and regulations, which may significantly affect the financial condition of market participants. The marketability of any product may be affected by numerous factors that are beyond the Company's control and which cannot be predicted, such as changes to government regulations, including those relating to taxes and other government levies that may be imposed. Changes in government levies, including taxes, could reduce the Corporation's earnings and could make future capital investments or the Corporation's operations uneconomic.

Limited Standardized Research on the Effect of Cannabis

To date, there is limited standardization in the research of the effects of cannabis, and future clinical research studies may lead to conclusions that dispute or conflict with the Company's understanding and belief regarding the medical benefits, viability, safety, efficacy, dosing and social acceptance of cannabis. Research in Canada, the United States and internationally regarding the medical benefits, viability, safety, efficacy and dosing of cannabis or isolated cannabinoids (such as CBD and THC) remains in relatively early stages.

Future research and clinical trials may draw opposing conclusions to statements in this Prospectus or could reach different or negative conclusions regarding the medical benefits, viability, safety, efficacy, dosing or other facts and perceptions related to cannabis, which could adversely affect social acceptance of cannabis and the demand for the Company's products.

Relative Newness of the Cannabis Industry and Market in Canada

As a license holder authorized to process cannabis, the Company will be operating its business in a relatively new industry and market, and the Company's success in the cannabis market will depend in part on its ability to attract and retain customers. In addition to being subject to general business risks applicable to a business involving an agricultural product and a regulated consumer product, the Company will need to make significant investments in its business strategy. These investments include the procurement of raw material, extraction equipment, site improvements and research and development projects. The Company expects that competitors will undertake similar investments to compete with it. Competitive conditions, consumer preferences, customer requirements and spending patterns in this industry and market are relatively unknown and may have unique circumstances that differ from other existing industries and markets and cause the Company's future efforts to develop its business to be unsuccessful or to have undesired consequences for it. As a result, the Company may not be successful in its efforts to attract customers or to develop new cannabis products and produce and distribute these cannabis products, or these activities may require significantly more resources than it currently anticipate in order to be successful.

Unfavorable Publicity or Consumer Perception

The Company believes the cannabis industry is highly dependent upon consumer perception regarding the safety, efficacy and quality of cannabis and related products distributed to such consumers. Consumer perception of the Company's products can be significantly influenced by scientific research or findings, regulatory investigations, litigation, media attention and other publicity regarding the consumption of cannabis products. There can be no assurance that future scientific research, findings, regulatory proceedings, litigation, media attention or other research findings or publicity will be favourable to the cannabis market or any particular product, or consistent with earlier publicity. Future research reports, findings, regulatory proceedings, litigation, media attention or other publicity that are perceived as less favourable than, or that question, earlier research reports, findings or publicity could have a material adverse effect on the demand for the Company's products and the business, results of operations, financial condition and cash flows of the Company. The Company's dependence upon consumer perceptions means that adverse scientific research reports, findings, regulatory proceedings, litigation, media

attention or other publicity, whether or not accurate or with merit, could have a material adverse effect on the Company, the demand for the Company's products, and the business, results of operations, financial condition and cash flows of the Company.

Further, adverse publicity reports or other media attention regarding the safety, efficacy and quality of cannabis and related products in general, or the Company's products specifically, or associating the consumption of cannabis or related products with illness or other negative effects or events, could have such a material adverse effect. Such adverse publicity reports or other media attention could arise even if the adverse effects associated with such products resulted from consumers' failure to consume such products appropriately or as directed. The increased usage of social media and other web-based tools used to generate, publish and discuss user-generated content and to connect with other users has made it increasingly easier for individuals and groups to communicate and share opinions and views in regard to the Company and its activities, whether true or not. Although the Company believes that it operates in a manner that is respectful to all stakeholders and that it takes care in protecting its image and reputation, it does not ultimately have direct control over how it is perceived by others. Reputational loss may result in decreased investor confidence, increased challenges in developing and maintaining community relations and an impediment to the Company's overall ability to advance its projects, thereby having a material adverse impact on its financial performance, financial condition, cash flows and growth prospects.

Risks Related to Regulation of Cannabis Industry

Achievement of the Company's business objectives is contingent, in part, upon compliance with regulatory requirements enacted by governmental authorities and obtaining all regulatory approvals, where necessary, for the sale of its products. The Company cannot predict the impact of the compliance regime Health Canada is implementing for the Canadian adult-use and medical cannabis industries under the Cannabis Regulations. Similarly, the Company cannot predict the time required to secure all appropriate regulatory approvals for its products, or the extent of testing and documentation that may be required by governmental authorities. The impact of Health Canada's compliance regime, any delays in obtaining, or failure to obtain regulatory approvals may significantly delay or impact the development of markets, products and sales initiatives and could have a material adverse effect on the business, results of operations and financial condition of the Company.

The Company will incur ongoing costs and obligations related to regulatory compliance, including regulations relating to continuous disclosure and other applicable securities laws. Failure to comply with regulations may result in additional costs for corrective measures, penalties or restrictions on the Company's operations. In addition, changes in regulations, more vigorous enforcement thereof or other unanticipated events could require extensive changes to the Company's operations, increased compliance costs or give rise to material liabilities, which could have a material adverse effect on the business, results of operations and financial condition of the Company.

Risks Related to Changes in Laws, Regulations and Guidelines

The Company's operations are subject to various laws, regulations and guidelines relating to the manufacture, management, packaging/labelling, advertising, sale, transportation, storage and disposal of adult-use or medical cannabis but also including laws and regulations relating to drugs, controlled substances, health and safety, the conduct of operations and the protection of the environment. Changes to such laws, regulations and guidelines due to matters beyond the control of the Company may cause adverse effects business, financial condition and results of operations of the Company. The Company endeavours to comply with all relevant laws, regulations and guidelines. To the best of the Company's knowledge, the Company is in compliance or in the process of being assessed for compliance with all such laws, regulations and guidelines.

The Cannabis Act and Cannabis Regulations came into force on October 17, 2018. The Cannabis Act and Cannabis Regulations prohibit testimonials, lifestyle branding and packaging that is appealing to youth. The restrictions on advertising, marketing and the use of logos and brand names could have a material adverse impact on the Company's business, financial condition and results of operations. In addition, the Cannabis Act allows for licences to be granted for outdoor cultivation, which may reduce start-up capital required for new entrants in the cannabis industry. It may also ultimately lower prices, as capital expenditure requirements related to outdoor growing are typically much lower than those associated with indoor growing. Such results may also have a material adverse impact on the Company's business, financial condition and results of operations.

The legislative framework pertaining to the Canadian adult-use cannabis market is uncertain. In addition, the governments of every Canadian province and territory have, to varying degrees, announced regulatory regimes for the distribution and sale of cannabis for adult-use purposes within those jurisdictions. There is no guarantee that provincial legislation regulating the distribution and sale of cannabis for adult-use purposes will be enacted according to all the terms announced by such provinces and territories, or at all, or that any such legislation, if enacted, will create the growth opportunities that the Company currently anticipates. While the impact of any new legislative framework for the regulation of the Canadian adult-use cannabis market is uncertain, any of the foregoing could result in a material adverse effect of the Company's business, financial condition and results of operations.

To date, only fresh cannabis, dried cannabis and cannabis oil products are permitted for sale in Canada. Pursuant to the Cannabis Act, certain classes of cannabis products, such as edibles, concentrates and other edibles are currently prohibited from sale, but new regulations under the Cannabis Act will come into force on October 17, 2019 to permit edibles, concentrates and other edibles to be available for sale no earlier than December 2019. While regulations have been released, the impact of these regulatory changes on the business of the Company is unknown, and the proposed regulations may not be implemented at all or, if they are, may change significantly.

Further, Health Canada may change their administration, interpretation or application of the applicable regulations or their compliance or enforcement procedures at any time. Any such changes could require the Company to revise its ongoing compliance procedures, requiring the Company to incur increased compliance costs and expend additional resources. There is no assurance that the Company will be able to comply or continue to comply with applicable regulations.

Original purchasers of convertible, exchangeable or exercisable Securities are further cautioned that in an offering of convertible, exchangeable or exercisable Securities, the statutory right of action for damages for a misrepresentation contained in a prospectus is, under the securities legislation of certain provinces and territories, limited to the price at which the convertible, exchangeable or exercisable Security was offered to the public under the prospectus offering.
